8. Recommended Actions:

Signature of HOD

Strength of the Department

- (i) Department has the laboratory with latest equipments in the field of Sports Biomechanics.**
- (ii) The programmes included in the curriculum cater to the needs of the students to explore their full potential in the field of Sports Biomechanics.**
- (iii) Every student is given opportunity to undertake their research projects and are given full support from the department to complete their projects.**
- (iv) The students are also given opportunity and encouraged to participate in National and International Conferences in India and abroad.**

Weaknesses of the Department

- (i) There is no fund available to the department, which could have helped the department to run their own programmes.**
- (ii) There is no funding agency which could sponsor various projects of the department in the field of Sports Biomechanics.**
- (iii) Video conferencing should be provided in the department so that students and the faculty can be enriched with new knowledge and the latest developments in the field.**
- (iv) There should be an inter university exchange programme of the students and the faculty for unfolding their potentials by participating in collaborative research programmes.**
