

RESEARCH AND INNOVATION POLICY

Mission and Objectives

The mission of Institute is to be a leading institute in advancing the research and innovation in the field of Physical Education & Sports. The purpose of this policy is to provide an environment to accomplish academic excellence, research competence and innovative role within the available resources.

This policy supports the mission and strives towards achieving vision of Institute through following objectives:-

- ❖ Ensure scientific excellence, innovation, and leadership through the recruitment and retention of outstanding faculty.
- ❖ Integrate all the departments to strengthen the research.
- ❖ Promote effective and efficient use of advanced instrumentation resources for research.
- ❖ Reinforce as a leader in transforming new knowledge and scientific innovation.

Strategic Assessment

The faculty research programs have long been recognized as one of the defining elements. The Institute has a reputation for excellence in scientific research and innovation. The Institute is committed to act as research-intensive organisation. The high quality of the Institute's research programs reflects the caliber of the research scientists and as a result reflects in the quality of the Ph.D. students and postdoctoral scholars with whom they associate. Many elements and characteristics of the Institute contribute to the continued excellence of its research.

Most faculty members have collaborations with overseas scientific and research organizations in addition to their distinguished laboratory facilities. Collectively, these factors create and reinforce a unique culture of collaborative innovation among the Institute's researchers, presenting a distinguishing opportunity for the future.

Initiatives

Institute's mission and vision for research will be accomplished through coordinated efforts of team with facilities renewal, collaboration and resource allocation.

Following initiatives have taken to achieve the desired goal.

- ❖ Faculty Excellence
- ❖ Education and Research Integration
- ❖ Translational Knowledge and Research
- ❖ Promote Collaborations
- ❖ Strong Interdisciplinary Research
- ❖ Rational Resource Allocations

Prioritization and Implementation

- ❖ Education and Research Integration Projects :
- ❖ Develop contemporary education facilities, including adequate space in research facilities.
- ❖ Translational Research Projects
- ❖ Interdisciplinary Research Projects :
- ❖ Hold a research meeting to establish new program priorities.
- ❖ Establish guidelines for the creation and governance of interdisciplinary groups.
- ❖ Create a faculty research network website.
